Extra special CSA share this week with additional number of items meant to assist in a delicious, nutritious and beautiful presentation while entertaining yourself and your guests over the Memorial Day weekend (and throughout the week). The fire roasted chilis can be frozen for a later date or consider chopping them with the tomato, cilantro and chives for a dip or topping if you plan on grilling outdoors. Mint, dill and chives could also be paired with the cucumbers. The chilis, turmeric,

tomatoes, lemongrass and cilantro could be used for an Asian style dish. Or maybe you would like an iced tea brewed with lemongrass and mint. Or cucumber water with mint. To your health and your pleasure, always! Enjoy 😊
